# ABOUT THE FILM

---

A gripping Christian suspense film, "Choices", two friends, are faced with a crucial decision that will alter the course of their lives forever. As they navigate the complexities of adulthood, they are confronted with the harsh reality that the wages of sin is indeed death. The film masterfully weaves together real-life situations, expertly crafting a narrative that is both thought-provoking and emotionally resonant. As they grapple with the consequences of their choices, they are forced to confront the age-old question: "Who will you serve?" As the story unfolds, Alex and Ryan find themselves at a crossroads, with two distinct paths laid before them. One path leads to a life of sin and destruction, while the other beckons them towards a life of redemption and purpose. The film's climax is a heart-pumping, edge-of-your-seat thrill ride as the friends are forced to make a choice that will have far-reaching consequences. Will they choose to serve the Lord, or will they succumb to the temptations of the world? And escape the hands of a young lady who is a serial killer. "Choices" is a powerful reminder that the decisions we make today will have a lasting impact on our eternal destiny.

Tubi has over 81 million monthly active users. In the third quarter of the 2024 fiscal year

Hulu has an estimated 99.7 million total viewers

Showmax had 2.1 million subscribers in Africa, compared to Netflix's 1.8 million.

# How We Make Money On Digital Revenue Streams

The average independent film makes around \$100,000 - \$260,000 in revenue. However, many independent films are starting to make upwards of \$500,000

Filmmakers can potentially make money on Tubi, but the revenue model differs from traditional platforms like Netflix or Amazon Prime. Tubi operates as an ad-supported streaming service, meaning that it offers content for free to users, funded by advertisements. Here are a few ways filmmakers can earn money through Tubi:

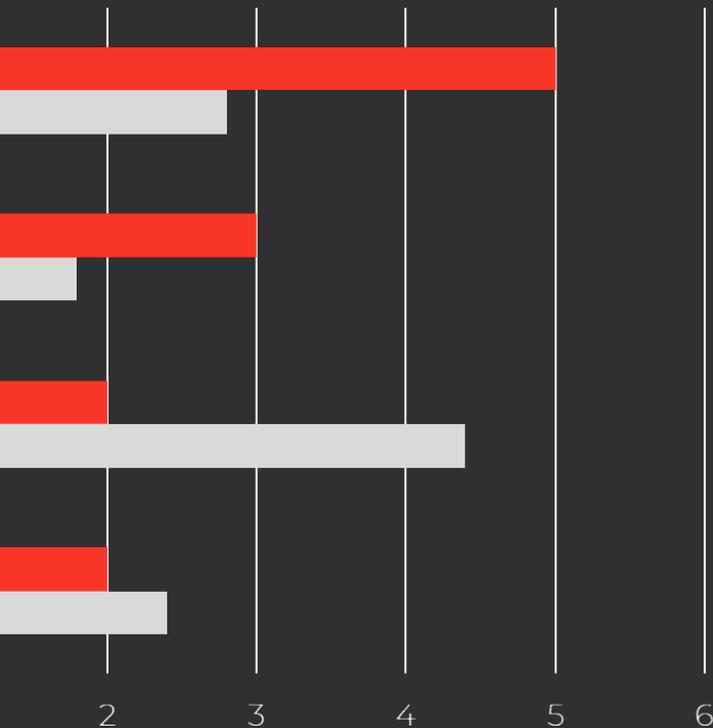

**Licensing Agreements:** Filmmakers or production companies can license their films to Tubi. They receive a fee for the licensing period, which can provide upfront revenue.

**Ad Revenue Share:** Depending on the agreement, filmmakers may receive a share of the advertising revenue generated from their content. This model can be beneficial if the film attracts a large audience.

**Increased Exposure:** While not a direct financial gain, being on Tubi can increase visibility and lead to other opportunities, such as distribution deals or increased sales of DVDs and digital downloads.

**Viewership Metrics:** Tubi provides analytics that can help filmmakers understand their audience, which can be valuable for future projects and marketing strategies.

Overall, while Tubi offers a different financial model compared to subscription-based services, there are still opportunities for filmmakers to monetize their work through licensing and advertising.

# Our Distribution Target Market

US, Canada, Africa Australia, Mexico, Puerto Rico, Costa Rica, Ecuador, El Salvador, Guatemala, and Panama. Tubi recently launched in the UK, marking its largest overseas expansion.
